

In 1992 I started my golfing career, when I began playing with some of the caddies at Huddle Park. I immediately saw myself capable and willing to play the sport. I am so honoured and humbled by this nomination am grateful for everything I've accomplished because everything I have, everything I am, and everything I have been is a gift from God to do what I am passionate about is truly a blessing, I am often reminded to keep dreaming and apply discipline and consistency but also remember to never confuse movement with progress.as a golf Director and teaching pro it is important for me to give back, reach in and empower someone younger, "be the change you want to see in the world" continue to work hard and strive because for me it has never been about what I have or where I'm coming from but what I do with it and where I am going, Currently I am working at Royal Oak cc managing the staff members fostering productivity and business etiquette.I am also running the Kenneth Dube Golf Academy which comprises of about 70 students and is growing rapidly as well as running and managing the pro-shop,

Although I am a full time Golf director, head professional and general manager I play the Sunshine tours part time in this way I'm grounded and reminded of where the dream began. Over the years I have been granted the opportunity to be involved in the PGA Board of Directors as a member and I am currently a member of the PGA regional committee. Despite all my achievements it is important to stay humble, work hard set limits and keep the dream alive
