

Dear Fellow PGA Professionals,

I am writing to you today to thank you for the nominations and to consider voting for me in the regional section. I have had the opportunity to work with truly great PGA Professionals since the start of my career, this is where I developed the desire and passion to continue improving my own skills on all levels.

I have had the opportunity to work with a wide range of golfers from beginners to professionals. I believe that each person is unique and should be coached according to their individual needs. It is my job to take all of "Golf", the technical, physical, and psychological, and make a complicated game simple for all golfers.

I started a Phelan Golf Academy at Centurion Country Club, my company strives to increase golf participation on all levels and develop all athletes to their highest potential, using innovative methodology, technology, and ideas. One of my goals for Phelan Golf is to nurture a friendly family environment that attracts and keeps the best employees, as I believe having the best in the industry will help the industry.

Highlights of my career thus far:

- Started the Phelan Golf Academy;
- Work with a European Tour player;
- Sunshine Tour players and winners;
- Big Easy Tour winners;
- Gauteng North players on all levels;
- SA Kids champions, and
- Certified Level 2 Titleist Performance Institute.

I continue to strive to better myself so that each person that steps into my office will walk out more enlightened and will fall in love with this amazing game.

Kind regards,

Kyle Phelan
