To whom this may concern,

**RE: Nomination for PGA Club Manager 2019 – Regional Nomination**

I appreciate the honour to have been nominated in the category of **Regional PGA Club Manager** of 2019.

I pride myself to now be in a position where I am not micro managed by the estate, board or committee and strongly believe that adds to the success of any Golf Director or Club Manager. It gives me the freedom to apply my invaluable skills developed from being a member of the PGA.

I am fortunate to have worked for some of South Africa's best golf clubs where I gained vital experience in the operations of three very differently run clubs.

I surround myself with phenomenal staff which I believe is the secret to the success of any golf club and ultimately the club manager. The PGA slogan "touching lives through the game of golf" is something I've made an effort to take seriously by being positive and making our homeowners feel at home when they come to the club. With a decrease in total number of people playing golf in the world it is imperative to look at alternative ways of making your club succeed by making it a family friendly environment, whether you are encouraging the kids in golf development or creating a meeting place where people are exposed to golf.

The best of luck to all the nominees, I am confident that the best manager will come out on top.

Should you have any questions please do not hesitate to contact me.

Yours in Golf,
