

Paul Marks

In terms of my position I am currently the GM of BA Golf and equestrian estate and Golf Director , the position was given to me after being in office only for 6 months on the basis of the strategies and short term turnaround of the golf course in 6 months . Taking over an estate which has had a history of litigation against a Developer who had turned their back on the estate was challenging to say the least. Neglect and financial strain along with various non compliances on various areas made me more determined to show we can get the ship on the right path. Building an effective management team as well as installing corporate governance within the structures allowed a consolidation. The estate was relaunched in 2017 with our 10 year anniversary where Mr Player was our guest of honour naturally being his family home for 20 years and more. A number of projects including the golf course improvement , estate infrastructure , Security upgrades and environmental best practices are all now firmly in place as well as financial controls. The BA estate has begun its resurgence and I am thankful to have been given such a wonderful opportunity to lift a community to what it deserves after such a painful journey .

I remain committed to the daily challenges of my job and to enhance the legacy of Mr Player and the BA pre primary school to secure funding for them over the next 5 years.
